Water Hauler Application for Registration

An annual registration fee determined by the registrar in accordance with section 3709.09 of the Ohio Revised Code may be levied upon each hauled water vehicle for the operation costs associated with enforcement of the program rules. Any such fee or portion of any such fee retained by the registrar shall be paid into a special fund and used only for the purpose of administering and enforcing the program under the Ohio Revised and Administrative Codes.

Company Information		
Company Name		Company Owner
Company Address		PO Box
City	State	Zip Code
County	Phone	Fax
Company Representative		Company E-mail

Transportation Equipment Information		
Yes	No	Has the vehicle or container previously been used to transport a noxious, hazardous, or toxic substance or liquid?
Yes	No	Will the transportation equipment be used to transport or distribute water from a stream, river, spring, pond, lake, or other water source not approved as a public water system for the use in a private water system?
Yes	No	Will all equipment used in the distribution of potable water be clean and sanitary and protected from contamination at all times?
Yes	No	Does each vehicle display the name and telephone number of the water hauler?
Yes	No	Does the tank and other containers with which water comes in contact made of materials that meet NSF standard 61?
Yes	No	Can every portion of the interior of the tank be easily cleaned and sanitized; and no lead, cadmium, or other toxic metals are used on surfaces which come in contact with the water?
Yes	No	Are the interior, piping, valves, and permanent or flexible connections so constructed and of materials which meet NSF standard 61 and can be easily cleaned and sanitized?
Yes	No	Is the inlet or opening to every container so constructed to prevent the entrance of insects, rodents or other foreign material that may cause contamination of water?
Yes	No	Are the inlet openings kept closed at all times, except for cleaning, inspecting, or filling the tank?
Yes	No	Are outlet connections so constructed and protected to prevent contamination of potable water? Are the outlet connections protected from contamination at times of delivery and nonuse?
Yes	No	Are flexible connector ends protected and capped at all times except during filling or emptying of the transportation equipment?
Yes	No	Is the tank or other container used for hauling water only used to haul potable water and not used to carry other substances?
Yes	No	Will the water contact surfaces and equipment be cleaned and disinfected: Before it is put into use;

	When the system or any of its parts have been dismantled or replaced; Any time contamination is suspected; At least once a week during periods of operation?
