**PRESS RELEASE**

**For Immediate Release**

In conjunction with the Ohio Department of Transportation and Richland County Regional Planning Commission, and the Ohio Public Works Commission, the City of Shelby will be constructing a streetscape project. The project will have the following features and impacts:

**State Route 39 city of Shelby streetscape project** - SR 39, SR 96, and SR 61 are a part of the sidewalk installation and streetscape improvements in the city of Shelby.

**NEW IMPACTS**

- **SR 61 (Gamble Street), at the SR 39/96 (Main Street) intersection, will close Monday, April 11 for 60 days. Crews will be installing sidewalks and crosswalks, completing signal improvements, completing streetscape items and drainage system improvements at the intersection. The detour route for southbound motorists will be SR 61 south to State Street, east on State Street to Broadway Street, south on Broadway Street to SR 39, south on SR 39 to Mickey Road, west on Mickey Road to SR 61, and reverse for northbound motorists. Estimated completion: Friday, June 10, 2022**
- **SR 39/96 (Main Street) will be reduced to one lane of traffic at the SR 61 intersection and will have two-way traffic maintained by a portable traffic signal during the 60-day closure.**

We encourage you to continue patronizing our downtown businesses who will need your support as we go through this protracted construction process. Businesses remain open and ready to serve you through the construction period. We are all so excited to see the end product, but realize there will be some pain points as we move through the process and ask the community to rally around our local shops and restaurants to see them through.

For more information, please call the Shelby Engineering Department at 419-342-3600.
