Reports To: Superintendent, Distribution Crew Chief

Employment Status: Full-Time

Normal Working Hrs: M-F 0700-1500

FLSA Status: Non-exempt

Classification Status: Classified

Adopted Date: 3/1/2019

POSITION SUMMARY

Possess the skills, abilities, and craftwork of a Journeyman Lineman. Operates and maintains the electric & telecommunications system equipment associated with the transmission, distribution of the electrical power grid and telecommunications. Performs diversified construction work and maintains poles, power lines, auxiliary facilities, and equipment for the transmission and distribution of electricity and telecommunications. May perform all of the work of the ground and line craft. Regular and predictable attendance.

ESSENTIAL FUNCTIONS OF THE POSITION

50% - Expected to do work without requiring immediate supervision. Generally does numerous diverse operations which require frequent adaptation of complete lineman skill. Performs diversified construction work and maintains poles, and power lines, and auxiliary facilities and equipment for the transmission and distribution of electricity. May perform all of the work of the ground and line craft. Responsible for expensive tools, equipment, and materials. Requirements include working on energized or, when necessary, de-energized voltages from 120 to 12,470 volts and any construction, maintenance, or repair of the City's transmission and distribution lines, including all related equipment. Requires complete working knowledge of transformers, transformer banking, transformer and conductor loading.

20% - Does switching and sectionalizing of lines. Energizes and de-energizes distribution and transmission lines for construction, maintenance or repair. Uses back feeds, if available, in cases where construction, maintenance, repair or emergencies warrant. Assists in substation erection, operations, and specialized maintenance. Uses all tools, devices, vehicles, mechanical aids, material, and equipment common to line craft operations. Must possess pole climbing skills and the ability to utilize them in the completion of projects and safety related tasks.

20% - When necessary, assists others or performs a wide range of related work as required or directed. Assists in the instruction of trainees, Lineman Class B, Lineman Class C, and Lineman Helper. Must have the ability to test, recalibrate, inspect, and read electric meters. Also maintains and assists with proper sizing of electrical metering for services. Performs reconnects, disconnects, security light repair, spot meter bases for customers, check trouble calls, locates underground services, traffic light repair and assists customers with problems and questions. Prepares work related records. Performs tree trimming around electric lines and telecommunication lines.

10% - When assigned, shall assist the Division of Generation and Telecommunications with the operation, construction, repair, maintenance, and inspections of the work to be performed. Performs underground utility locates for OUPS notices.

NON-ESSENTIAL FUNCTIONS OF THE POSITION This job description in no manner states or implies that these are only duties and responsibilities to be performed by this position. Percentage of duties and responsibilities can change by availability of work. Other duties may be assigned.

SUPERVISORY RESPONSIBILITIES This position has no supervisory responsibilities.

QUALIFICATIONS To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions
